Specifications

Appearance	: Ivory Powder
Total Solid (%)	: min. 90
pH (1:10)	: 6,0 – 8,0
Light fastness	: Good

Applications

Turesin W 701 is a general purpose organic filler for the retanning of leathers. Leathers treated with **Turesin W 701** show uniform tight handle, smooth grain and roundness with a silky touch and good buffing properties. **Turesin W 701** improves fullness and helps to fill the empty areas like bellies and shanks therefore it is highly recommended to improve the cutting yield value. It promotes better quality consistence between different wet blue stocks. **Turesin W 701** can be used directly in chrome, vegetable or mix re-tanning. The best filling effect can be obtained offering the product immediately before fat-liquoring process where we can obtain it's best penetration and physical – chemical up-tacking.

Recommended usage of **Turesin W 701** :

- Re-tanning : 1 – 4 % on shaved weight
- Fatliquoring : 2 – 4 % on shaved weight
